

OFFER HUTTON BLIND SCHOOL

Is a Teacher in the Normal Institute at White-water.

HE IS UNDECIDED

Making a Visit This City and School Today to Investigate.

HAS BETTER JOB NOW

Madison, Wis., June 27.—The state board of control adjourned this afternoon without having elected a superintendent of the school for the blind at Janesville or the school for the deaf at Delavan.

Prof. Hutton who was offered the position at Janesville was given a week to consider the matter. The board has no one in view to succeed Supt. Swiler at Delavan since Prof. Cheever's declination.

The board will meet at the State Prison, Waupun, Monday evening in regular quarterly session, but no elections are expected then or before the next regular session.

Prof. Hutton Offered the Place Madison, Wis., June 27.—The state board of control late yesterday tendered the superintendency of the Janesville school for the blind to Professor A. J. Hutton, institute conductor of the state normal school at Whitewater. Mr. Hutton, it is understood has taken the offer under consideration. He was there in response to an invitation from the board to confer with it regarding the position.

Before leaving for home last evening he told some of his friends that the offer impressed him favorably. Professor Hutton had a long conference with the board and it is understood that the members are much impressed with him. None of the members of the board will discuss the situation.

From a financial standpoint the Janesville position would not be any better than that now held by the professor. He receives a salary of \$2,200 a year for his work at the Normal school, and between \$400 and \$500 for conducting teachers institutes. The Janesville position has paid a salary of \$1,700 and maintenance for the superintendent's family. Whether or not the board has offered to increase this compensation is not known.

Professor Hutton has been connected with the Whitewater Normal school since early in the Peck administration. He went to the Platteville school from Eau Claire in 1877. Professor and Mrs. Hutton have one son and three daughters. Both the professor and his wife are of Scotch descent.

It is understood that Attorney Harvey Clark of Monroe will not get the Janesville school unless the board is unable to induce some prominent educator to accept it. Mr. Clark, however, will probably get some desirable public position, as he stands close to the governor.

Hutton Will Visit Janesville Whitewater, June 27.—A. J. Hutton was seen last evening on his return from Madison, where he has been in conference with the board

of control. He said that he had been tendered the position of superintendent of the institute for the blind at a tempting salary. He will consider the matter of acceptance and will visit the Janesville institute today. George Bishop was here on Monday and is supposed to have originated the idea of tendering the place to Mr. Hutton.

PROF. HUTTON IN THE CITY

One of the Foremost Educators in State of Wisconsin.

Prof. Hutton and wife of Whitewater were in the city today inspecting the State School for the Blind and considering whether the position of superintendent is one which Prof. Hutton wishes to accept. When interviewed Prof. Hutton was still very undecided. He has an excellent position at the Whitewater Normal school and has just purchased a handsome home there.

The Board of Control is offering him every inducement including an increase in salary over that paid to the former superintendent and the promise to make his wife matron of the school if she should desire the position. George Bishop, of the State board, is especially anxious that Prof. Hutton should accept.

Prof. Hutton is one of the foremost educators of the state and seems an excellent man for the position. He and his wife are very fine people, and his family, which is one of the foremost in Whitewater, would be a welcome addition to the educational and social circles of the city. They are prominent members of the Congregational church and Mrs. Hutton is deeply interested in Missionary work. She has charge of the state Wee Folks' band, the missionary society of the little people. Members of the family are quite well known in this city and have many friends who would be pleased to have them come to this city to reside.

CONTEST BETWEEN HARVARD AND YALE

The Twenty-third Annual Boat Race Between the Two Colleges to Be Rowed This Afternoon.

New London, Conn., June 27.—New London looked out of its windows this morning and saw the Thames dotted with all kinds of steam and sailing craft and the inhabitants knew that the day for the twenty-third annual boat race, between Harvard and Yale had come.

Opinions this morning were fairly evenly divided although the balance tipped slightly in favor of Harvard. The coaches of the crew are satisfied with the condition of their men.

The freshmen eight oared race will come first. It will be started at 4:30 at the bridge and will be rowed up stream two miles finishing at the navy yard. Immediately after the freshman event has been completed the Varsity four oared race will be started at the navy yard and rowed up river two miles, over the remainder of the four mile course, with a finish line directly opposite Red Top. These two races will be with the tide.

In one respect all six of the crews that will row late this afternoon are alike. They will go to the line in splendid physical shape. The two varsity eights are in splendid condition and if a physical weakness develops in either boat it will be because the coaches selected a man not strong enough although trained to the minute.

HARVARD IS GIVEN ONE MILLION DR. ELIOT ANNOUNCES THE GIFT

The Great Trust Promoter Will Erect Three Buildings for the College Medical School.

Cambridge, Mass., June 27.—President Eliot announced at the Harvard alumni dinner last night that John Pierpont Morgan had given more than one million dollars for the erection of three of the five buildings planned for the Harvard Medical school in Boston. The gift is for the prosecution of "applied biological research."

Some months ago, President Eliot explained Henry and Frank Higginson took a tract of twenty acres of land, paying \$550,000 for it. This they agreed to hold in trust for the university until means should be found to buy it from them, when they would sell at cost price. It was supposed that the carrying out of the plan would be a matter for the remote future. Nevertheless, the medical faculty, through a committee, consisting of Drs. Henry P. Bowditch and J. Collins Warren, proceeded to draw up plans and specifications for the buildings which they would like to have and could use next year if they had them. The estimated cost was \$2,000,000. Last Friday Dr. Warren received a cable dispatch from Mr. Morgan in which he said:

"Referring to our conversation

DANGER FOR THE TOBACCO CROP DROUTH IS FAST DESTROYING IT

There Must Be a Good, Generous Rain—Hundreds of Acres Are Being Prepared for Replanting—Heat Killing the Plants.

The farmers are feeling decidedly blue over the tobacco prospects and the indications are that the crop will be considerably delayed unless there is a general change in the weather soon. Rain is what is needed and good generous rains there must be before the work of planting can continue.

The plants which were transplanted later than last Friday are all dead in many localities, the intense heat having dried them up before they could take root. Between here and Edgerton seventy-five per cent of the transplanted plants are dead and the farmers are pulverizing the ground to get it ready for another planting. Plants which were transplanted the early part of last week are firmly rooted and are doing nicely but the work of transplanting has ceased, the farmers realizing that it

is useless. It is said that the heat is killing some of the plants in the beds but this would seem to indicate a lack of care on the part of the grower.

The prevailing conditions will delay the crop although it will probably not decrease the acreage. The farmers are anxious to get the plants in the ground and are impatient at any thing which tends to make the crop a late one as each week in the fall increases the danger of frost.

The tobacco market is dull and will be for several weeks. The dealers have sold practically all of the old tobacco and the 1900 leaf is not ready for the market yet. Considerable of it has been bargained for but the most of the dealers prefer to wait until it has gone through the sweat when they think they will be able to command better prices.

HAS DECLARED WAR ON THE MOSQUITO

There Is No Doubt but That the Little Pest Aids in Spreading Malarial Diseases.

Washington, June 27.—Dr. Walter Wyman, surgeon general of the marine hospital service, has declared war and destruction against mosquitoes in all parts of the United States where the marine hospital service exercises jurisdiction over health. In a circular issued today Dr. Wyman directs attention to the importance of insects as factors in the conveyance of disease. He says, among other things:

"There is no longer doubt about the relation of the mosquito to malarial diseases and to filariasis. According to Simonds the plague is transmitted from the rat to man by fleas. The infection of typhoid fever and to a certain extent cholera may be conveyed by flies. According to the recent work of the army commission the mosquito plays an important part in the transmission of yellow fever. You are therefore directed to give particular attention to this subject, so far as it relates to the work of the service. You are to guard against the breeding of mosquitoes by methods now in vogue." Dr. Wyman's circular contains minute instructions as to the best method of destroying dangerous insects.

THOMAS G. BARKER GIVEN FIVE YEARS

Jersey City, June 27.—Thos. G. Barker was found guilty of an assault to kill Rev. John Keller whom he shot for an alleged criminal assault on Mrs. Barker, was sentenced to five years at hard labor this morning.

INVESTIGATE LUMBER CAMPS

State Board of Health Wants a Small Pox Commissioner

At the special meeting of the state board of health which will be held at Madison some time within the next two weeks, when Governor LaFollette will be asked to reconsider his decision regarding the use of the contingent fund for the reimbursement of northern cities that have taken care of outside smallpox patients at their own expense, the board will also ask the executive that money from the fund be allowed to pay the expenses of a commissioner who shall investigate the lumber camps of the state for the purpose of discovering the best means to be employed in combating small pox.

WEDS MISS MARTHA LEAVITT

Professor Strong of Wooster Finds His Bride at Beloit

Beloit, June 27.—The marriage of Professor J. W. H. Strong of Wooster Ohio university, son of W. B. Strong of Beloit, and Miss Martha, daughter of the Rev. Dr. George R. Leavitt, pastor of the First Congregational church took place yesterday and the guests numbered several hundred. The bride's father officiated. The bride's father officiated. The bride's father officiated. The bride's father officiated. The bride's father officiated.

State Yields Oil Claims

Dallas, Texas, June 27.—The Texas supreme court at Austin has rendered an important decision affecting the oil industry. The court decided that the state has no interest in mineral lands sold to actual settlers from the school land domain. This settles an important controversy started by the discovery of oil at Beaumont and other places in Texas.

BADGER MUNICIPAL LEAGUE SESSION

President Victor P. Richardson of Janesville Called the Meeting to Order.

Viroqua, Wis., June 27.—With the mercury close up to the 100 mark, the state municipal league of Wisconsin met in this city yesterday afternoon for its annual convention with a good representation from the different cities of the state. The first session was held in the First Congregational church, called to order by president Richardson, mayor of Janesville. All of the other officers of the league were present. The address of welcome was made by former Mayor Leitch of Columbus.

Mayors Linsell of Reedsburg, Williams of Ashland, Leitch of Columbus, Buell of Madison, Douglas of Monroe, Richardson of Janesville, Professor Bussee of Madison and a half dozen of Viroqua gentlemen also spoke. This morning citizens and visiting mayors in carriages rode through the city. Business sessions and election of officers will follow this afternoon.

SHARP SKIRMISH WITH FILIPINOS

Manila, June 27.—In a skirmish in the south part of Samar Lieut. Edward Downs of the First Infantry and a private in the same regiment were killed. Private Krause of the Nineteenth was killed and four privates of the same regiment wounded in an attack on Samson's camp on Bohol. Fifty-four insurgents were captured by Lieut. McNair in Taybas province, Luzon.

POWERS ADVISE KRUGER TO SUBMIT

Vienna, June 27.—The Neues Wiener Journal today states that ex-President Kruger recently renewed his appeal for intervention in South Africa to France, Germany and Russia. All three powers, the paper says after an exchange of opinions, advised Kruger to arrange for an immediate submission of the Boers.

PEARY STEAMER AT ST. JOHNS.

The Erik Will Sail for the North About July 15.

St. Johns, N. F., June 27.—The Peary Arctic club's steamer Erik, Capt. James A. Farquhar, has arrived here from London, "all well." The captain, officers and crew for the northern cruise will be shipped here, after which the steamer will proceed to Sydney, C. B. and take coal and stores for final departure for the north on July 15. Since the charter of the Erik by the Peary club she has been sold to a St. John's syndicate, headed by W. S. Job & Bro., owners of the Diana, the Peary ship of 1899, delivery to be made after her return from her arctic cruise. After leaving Sydney the Erik will proceed by way of the Strait of Belle Isle to West Greenland. It is believed the voyage will last about two months.

Will Tour World in a Yacht

New York, June 27.—George Lauder, Jr., of Pittsburg, proposes to make a voyage around the world in the schooner yacht Endymion, recently purchased from the estate of the late George Day. The yacht, which is at South Brooklyn, will sail today for New London, to witness the 'varsity' races, and afterward will sail for Scotland, where Mr. Lauder will be the guest of Andrew Carnegie. In the early fall the start for a trip around the world will be made. Mr. Lauder will be accompanied by a number of Yale friends and expects to be gone a year.

WISCONSIN STANDS TEST.

Deficient in Some Things, Ship Generally Is Efficient

Washington, D. C., June 27.—The navy department has received the report of the board appointed to conduct the final trial of the steamship Wisconsin on June 17. The board reports that the vessel made an average speed of 15.8 knots an hour. The battery of the vessel was fired sufficiently to prove to the board that the guns, gun carriages, and their fittings and appurtenances work properly. The board reports that the wiring system does not work satisfactorily.

The searchlights were found to be below contract requirements. The condition of the boilers was not entirely satisfactory.

Everything considered the board finds that the vessel is well built, and efficient in all respects.

GOOD TEMPLARS ADJOURN

Next Temple Convention Will Be Held at Shawano

Marquette, Wis., June 27.—The Grand lodge of Good Templars closed its session last evening with a banquet. The following officers were elected: Worthy grand templar, D. J. Fisher, Marquette; vice grand, George Johnstone, Appleton; worthy grand chaplain, J. B. Root, Marquette; worthy grand usher, F. M. Miller, Shawano; worthy grand recorder, C. R. Smith, Marquette. The next temple convention will be held at Shawano.

Denies Appointment Was Made

Madison, Wis., June 27.—State Game Warden Henry Overbeck said today that Victor Bader of Depere game warden for the Ninth congressional district. No appointments of deputies, he said, would be made until some time in August.

SHARP FIGHTING IN SOUTH AFRICA

Richmond, Cape Colony, June 27.—A large Boer force attacked this place on Friday last fighting until dusk. The Boers retired upon the approach of reinforcements.

THREATEN STRIKE IN NEW ORLEANS

New Orleans, June 27.—A big strike car men here is threatened. They demand ten hours at twenty cents an hour and the reinstatement of all discharged union men.

SEVENTH NATIONAL HAS SUSPENDED

New York, June 27.—The Seventh National bank closed its doors this morning. This notice was posted: "This bank is in the hands of the comptroller of the currency."

King Congratulates McKinley

Washington, D. C., June 27.—Laurel S. Swenson, minister of the United States to Denmark, called on the King Christian IX. and to express to the chief executive of this country the heartfelt congratulations of Denmark's ruler that Mrs. McKinley is recovering.

Mrs. McKinley Takes a Drive

Washington, D. C., June 27.—Mrs. McKinley took the first morning drive she has had in a long while with the President. She appeared to be nearly as well as usual.

HELEN FIFIELD ON WAY HOME

First Positive Information About the Girl from Chicago.

WAS IN BUFFALO

Surprised When She Learned the Great Trouble She Had Created.

JUST GIRLISH FREAK

Chicago, Ill., June 27.—Miss Helen Fifield was yesterday positively identified at Buffalo by personal friends of the family who went from Chicago for the express purpose.

Miss Fifield arrives here this afternoon and will leave for her home in Janesville tonight.

Partridge & Partridge, the Chicago attorneys, who have had the case sent the Buffalo friend of the family to Buffalo after receiving a clue on Monday and this morning received a message of identification.

This noon I interviewed Newton A. Partridge, senior member of the firm. He said:

"You can positively state that Miss Fifield will be home tonight. She is well and merely left home on a girl's prank, not thinking of the trouble it would make."

James Fifield was at Partridge's office and said: "Helen will arrive at Chicago this afternoon. I intend to meet her. This is correct."

Miss Fifield reaching Buffalo secured board in a private family. She also attended the exposition. She was surprised when informed of the trouble she had caused.

WILLIAM W. WATT.

A telegram containing the first news of the whereabouts of Miss Helen Fifield, that might be relied upon to be true was received last evening at 8:35 at the Western Union office in this city. The telegram was addressed to F. E. Fifield and was as follows:

"Buffalo Depot, N. Y., June 26.—F. E. Fifield, Janesville—I am safe and well. Will return home at once."

When the message was received at the office, Mrs. Carpenter at once telephoned it to Mr. Fifield's home and the terrible tension under which the family had been laboring for the last week was at once relieved. The

UNCLE SAM'S BOOKS DISCLOSE MOST PROSPEROUS PERIOD IN OUR HISTORY

Treasury Statement Soon to Be Issued Will Show a Surplus of \$77,000,000 During the Last Year.

Washington, D. C., June 27.—With a less, as government expenses the present week the fiscal year constantly increase while receipts the government closes, and Uncle Sam will close a set of books showing the most prosperous period in its history. The treasury statement, to be issued next week when all figures are in, will show that during the fiscal year which ends on Saturday night the receipts of the government have exceeded the expenditures by about \$77,000,000. This showing, two years after a foreign war and while the expensive results of that war were still in evidence, is believed to be unequalled in the financial history of any nation.

The treasury balance sheet will show receipts of about \$587,000,000 and expenditures of \$510,000,000. This surplus of \$77,000,000 is in the face of extraordinary expenditures for army and navy, as well as for the civil administration of the colonial territories. The repeal of certain portions of the war revenue act will cost the government about \$40,000,000 annually, so that next year the surplus will not be over \$35,000,000 and probably less.

No matter how the balance may be liquidated, this little matter of two-thirds of a billion dollars will be on the right side of Uncle Sam's ledger when he closes the big book with a satisfied bang on next Saturday afternoon.

GOLF GAME MAKES BETTER LAWYERS

Judge John Barton Payne of Chicago Says a Good Word for the Sport.

For a man engrossed in the cares and anxieties incident to a busy professional life, to my mind there is no pleasanter or more beneficial relaxation than golf. It takes a man out of himself, drives the cobwebs out of his mind, relieves him of his worries and makes him fresher, brighter for the work of the morrow, says John Barton Payne, ex-judge of the Superior court, in the Chicago Record-Herald.

As a matter of fact golf is making a new generation of lawyers. Time was, and not so long ago, either, when the responsibilities which come to all lawyers engaged in the strenuous life proved such a burden that it was the rule rather than otherwise for the lawyer to go to pieces at 50. It became a great problem for him to find out how to extricate himself from the accumulation of cares, and too many have broken down under the strain.

I thank golf for having given me the most delightful means of forgetting these worries. It has been a constant satisfaction since I began to play three years ago that I have been able to get away from this responsibility—to get out on the links and under the inspiration of the green of the grass and fresh breezes and wide, full sweep of meadow to breathe in the essence of life which nature affords, and which has returned me to the office a refreshed and more vigorous man.

When I went on the bench I found golf an invaluable blessing, and I think I simply echo the sentiments of thousands of busy professional men who, like myself, have found similar benefits accruing. A man can do more work in four or five hours, with two or three hours of golf, than he can by sticking to his desk a full day, and there is far, far less chance of his going to pieces at 50.

Golf is the only sport for which I was willing to forsake my desk, but I do not regret an hour spent upon the links, for I know it will repay the use of time many fold. I have played ball, ridden horseback, hunted and fished, and all these serve to distract and are of benefit, but golf has them all beaten.

Golf benefits are not merely negative in that the game takes one away from his profession; they are positive. Golf teaches concentration. To play any kind of a game a man must devote his entire attention to the play. The man who plays golf must forget his best friend and his worst enemy. I do not agree with those who say that the game unlike tennis, and other pastimes, allows a man opportunity to let his thoughts wander between strokes. Concentration is one of the most needed qualities in professional life, and golf surely demands it. You cannot play golf with too much concentration. The moment your thoughts get to wandering you fail to play your game.

Golf teaches man self-containment. There is no other game which teaches men consideration for others as much as golf. In other words, the etiquette of the game teaches them to be gentlemen always.

And there is no game so jealous of personal honor. The man who will cheat in his count or in his lie—his name is Dennis. No other game is so exacting in making men truthful and scrupulously honest in playing the game and observing its rules. He must play the ball as it lies, not pressing down the ground behind it. He must not sole his club in a bunker; he must acknowledge instantly when he fumbles an approach, or makes a push shot instead of fairly striking the ball—so golf, too, teaches the absolute necessity of care.

The human race always has demanded and always will demand relaxation from the humdrum of everyday life. Horse racing and all the various sports are means to this end. And golf, a positive physical benefit in itself, stands out as one of the very best.

Indeed, I have become so used to leaving behind the cares of lawsuits and the routine of my professional life when I get out on the links that when I have retired for the night and chance to wake it is to the golf I have played that afternoon that my mind reverts, and not to the lawsuit.

The reason most professional men are so prone to feel the responsibility of their duties, it seems to me, is that they have nothing, or not enough things to divert their minds. They need relaxation; and to have their minds absolutely taken off their work. "All work and no play makes Jack a dull boy," and all work and no golf makes a careworn professional man.

Another advantage of golf as compared with other pastimes and diver-

sions is its convenience. The proximity of the golf links to the city enables a man to enjoy his golf by simply getting on a train, riding, it may be, half or three-quarters of an hour, getting to the club, donning his golfing clothes and then to get out for an eighteen hole match on the club course, and all after he has done several hours' work in the office.

FISH FOR BADGER LAKES AND RIVERS

State Commission Has Distributed 141,244,000 Spawn in Waters of Wisconsin This Season.

The state fisheries commission has distributed 141,244,000 spawn to lakes and streams of Wisconsin this season. The report of Superintendent Nevin of the state fish hatcheries which was submitted to the commission at a meeting held at Bayfield, where the commission had gone on its annual tour of inspection, details the distribution. The commission inspected the site of the hatchery to be built this year at Minocqua.

Superintendent Nevin's report for the first six months of the year shows a larger distribution of fish than the commission has ever made before in a single season. Following are the kind and number of young fish placed: Brook and brown trout fry, 1,520,000; rainbow trout fry, 885,000; wall-eyed pike fry, 76,900,000; muskellunge fry, 500,000; pickerel, 2,920,000; white fish, 37,500,000, and lake trout fry, 21,039,000.

The commission is using its best endeavors to propagate black bass in ponds. For two years it has been experimenting along this line unsuccessfully, but its failures have made it wiser, and the distribution of half a million of black bass is not beyond a possibility for this season. Ponds have been built at Bayfield and Minocqua having all the conditions that black bass require for spawning. These ponds are stocked with a sufficient number of bass of spawning age, and provided with artificial beds for them to spawn on.

The Madison hatchery contributed the greater part of the brook, brown and rainbow trout fry; Oshkosh nished more than half of the pike and the whitefish; Bayfield comes in for a large number of white fish and lake trout, also some trout of the smaller varieties, and the temporary hatchery at Minocqua furnished all the muskellunge and over 35,000,000 pike fry as a bid for a permanent hatchery there. The white fish and lake trout were planted in Green Bay Chequamegon bay and the great lakes; the pike and muskellunge in the inland lakes, and the brook and rainbow trout in the public streams of the state. Most of the rainbow went into the larger streams of northern Wisconsin, to which they are the best adapted.

KEEP COOL MENTALLY

Physician Advises That Is the Main Thing to Do During Prevailing Hot Weather.

"If you want to keep cool, don't attempt to learn a long list of rules as to what you should eat, drink and wear. If you do, the hot weather will be over before you've mastered your subject."

That was the first proposition laid down by a local physician today when asked for a few hot weather hints.

"Keep cool mentally, that's the main thing," he continued, and he looked the part as he spoke. Outside the people were struggling in the shimmering, sizzling heat, but he looked as fresh and as comfortable as one might expect to find him on an April morning.

"Don't let your temper get away from you, and leave vexations of mind and spirit to other people. In addition to this general proposition only a few suggestions are necessary for the person who would keep comfortable when the mercury is swishing up to high water mark.

"For instance, everybody should wear clothes that are cool. Have them made loose and don't let there be any tight bands at the neck or waist. Put on loose fitting collars and don't have them high enough to shut out the air.

"Go to bed early at night and be regular in your habits. Observe moderation in your diet and exercise. Rest as much as possible. It is no use laying down rules as to what people shall eat to avoid the worst terrors of summer. Each man should be the best judge as to what best suits his system.

"The relief one gets from drinking ice water or eating ice cream is only temporary and is always followed by a reaction. Beer is worse for it stimulates heart action. The wise man will therefore be moderate as to his drinking habits.

"If a person is overcome by the heat the first thing to do is to loosen all bands around the body and carry him to a cool place. Take off the collar and unbutton the clothing. If the prostration occurs in the street keep the crowd back by all means and give the victim a chance to get fresh air. When he has been carried to a cool place if the face is red apply ice. Send for a physician anyway."

It will pay you to get our prices on wash dress goods. T. P. Burns.

PIONEER SETTLER HAS PASSED AWAY

H. S. Simmons, One of the Oldest Residents of Clinton, Died Tuesday Morning.

Clinton Junction, June 26.—Mr. H. S. Simmons, one of the oldest and best known citizens of Clinton, passed away at ten o'clock Tuesday morning, June 25. Mr. Simmons has been in very poor health for a number of years, being obliged to retire from active business life, but retired as well as usual on Monday evening. Soon after suffering a paralytic stroke, from which he never rallied. The firm name of Hartshorn and Simmons has been identified with Clinton ever since its early days. He leaves a wife and two sons to mourn his loss. The funeral will be held this afternoon at his late residence at two o'clock.

A telegram was received Tuesday afternoon bearing the sad intelligence that Mr. Guy Woolston of Chicago had been killed in an accident. No particulars were given. Mr. Woolston was one of our bright young men, having spent his childhood in our midst. The family have the heartfelt sympathy of their friends. Mrs. Woolston's mother, Mrs. Chicago.

PORTER.

Porter, June 26.—Miss Lizzie Boss of Emerald Grove spent last week with her brother, Frank and family. Miss Mamie Truman of Janesville Sunday at home.

Willie Dooley is home from Watertown where he has been attending school.

A large crowd attended the band dance at J. H. Nichol's last Friday evening.

Mr. and Mrs. D. Carey and Miss Kate Watson of Janesville came out Sunday.

Mr. and Mrs. Fred Benach are rejoicing over the arrival of a daughter.

The Wisconsin Renovating Co., started in Fulton, are getting lots of work in this vicinity, cleaning feathers, beds, pillows and etc. The work is being carried on by Mr. Bert Raub of Johnstown, with an assistant. Everything is done in first class shape.

Miss Julia Cullen of Janesville closed a successful term of school in the Eagle district last Saturday. A pleasant entertainment was given in the evening and a large crowd was in attendance. The Misses Mayme Ford, Roxie Bates and Nellie Hendrick, finished the course of study and received diplomas.

HARMONY

Harmony, June 27.—Wilbur Stuart is at home after spending several weeks working a tobacco ware house in Milton Junction.

Mrs. Sarah Guernsey has returned from her Colorado trip and reports her sister, Mrs. Ella Fowl, in much better health than she expected to find her.

Tobacco setting is well under way in this vicinity. Quite a number are through with the transplanting.

Mrs. Chas. Burgess and sister visited at Wm. Crandall's last Thursday.

Miss Sarah White of Orfordville is visiting relatives in this vicinity.

Mrs. Guernsey is improving slowly.

Nellie Wilcox is visiting in Beloit. Miss Edna Cole of Milton Junction called on friends on last Friday and Saturday.

Mrs. Anna Tasker and granddaughter returned from Milwaukee on Monday where they have been visiting Mrs. Ide Wood.

Miss May Belle of Janesville spent Sunday at E. M. Martin's.

Mr. Noey is visiting his daughter, Mrs. Peterson.

Special Train Excursion to Clear Lake, Ia.

Via the Chicago, Milwaukee & St. Paul R'y, on Saturday and Sunday, June 29th and 30th.

Special Free Programme.

Balloon ascension and parachute descent at 1:30 p. m. by Madame De Leon, of Rockford, Ill.

Band concert and musical entertainment at 2 p. m. in pavilion at Clear Lake Park.

Bears the Signature of J. C. Fitch

FEW WOMEN PHARMACISTS

Many Are Graduated From Schools But Few Get Positions

"In an experience of twenty-seven years in connection with a school of pharmacy," said an employee of a drug store to a reporter for the New York Sun, "I have never known a woman graduate of pharmacy to get a place." Every woman who has ever obtained a license from a Board of Pharmacy has probably had a male relative in the business, either, a father, a brother, or husband, who has given her the necessary four year's apprenticeship. The law provides that a pharmacy shall not be left in charge of any person not a licensed druggist. So after a while it becomes convenient to send the wife or daughter to college and have her get a license in order to save the expense of employing another man.

"But if the woman can get a license, why can't they get a job?" asked the reporter.

"For the same reason that they can't get taken on as apprentices. A man doesn't like to tell a young girl to clean the bottles or wash up the graduates and mortars, or send her on all sorts of errands. So, not feeling like using her as hard as he would a boy, he doesn't want her around. With a clerk there is lifting to be done and ladders to be climbed. A man doesn't want to sit still and see a woman do that sort of thing, and yet that's what he wants a clerk for. Some of the big drug stores are putting in a woman clerk now to wait on the women customers; but she is simply a saleswoman, not a graduate of pharmacy."

"Then all these women graduates are simply saving the cost of another man in their respective family pharmacies?"

"No, some of them have gone into business for themselves! That's the queer part of it. While so far as I know not a single woman graduate has ever secured employment, there are about twenty successful pharmacies owned by women in Manhattan borough. Then they are multiplying in the smaller towns. Women seem to do as well as men in the same class of stores."

Half Rates to Madison, Wis., Via the North-Western Line. Excursion tickets will be sold at one fare for round trip June 28 and 29, limited to return July 1, inclusive, on account of Farmers' and Dairy-Men's excursion. Apply to agents Chicago & North-Western R'y.

4th of July Excursion Rates via C. M. & St. P. Ry. Dates of sale July 3d and 4th, good to return until July 5th. At and one-third fare for the round trip, to all points within 200 miles.

Rev. John McLean Dead. Beloit, June 27.—Rev. John McLean died at his home in this city last night. For two years he had been in poor health and had made a trip to Santa Barbara, Cal., where he spent eighteen months in an attempt to improve his condition. Rev. McLean was pastor of the First Presbyterian church here for several years, but more recently he had been in Colorado pastorate where he contracted rheumatism which finally caused his death.

Nothing Tastes Good

And eating is simply perfunctory—done because it must be.

This is the common complaint of the dyspeptic.

If eating sparingly would cure dyspepsia, few would suffer from it long.

The only way to cure dyspepsia, which is difficult digestion, is to give vigor and tone to the stomach and the whole digestive system.

Hood's Sarsaparilla cured the niece of Frank Fay, 106 N. St., South Boston, Mass., who writes that she had been a great sufferer from dyspepsia for six years; had been without appetite and had been troubled with sour stomach and headache. She had tried many other medicines in vain. Two bottles of Hood's Sarsaparilla made her well.

Hood's Sarsaparilla

Promises to cure and keeps the promise. Don't wait till you are worse, but buy a bottle today.

THE BIG STORE 20, 22, 24, 26, 28, S. MAIN ST. JANESVILLE, WIS.

WE KEEP THE QUALITY UP

THE SAHLIN

Perfect form and corset combined. It is made in several styles. We show in the \$1.00 and \$1.50 grades, made of summer netting.

Also have the Sahlin Summer Bust Form at 50c. These garments have no hooks, clasps, strings, laces, or heavy steels, and are easily adjusted.

Summer Corsets.

We show about eight styles of summer corsets at 50c, \$1.00 and \$2.00, made of Netting and fine white Batiste in extra short, medium and long waist, also in high bust, the following makes:

Royal Worcester, American, French P. D. Our 50c extra short corset covered with fine white Batiste, called the Tuxine, also our Royal Worcester batiste corset at \$1.00 are very popular styles and it is only by ordering them often that we keep our stock complete.

Bathing Suits

We are now showing an assortment of women's Bathing Suits made of brilliantine and flannel, black and navy at \$4.00, \$5.00 and \$5.50. The colors are fast, and we call particular attention to the excellent and thorough manner in which they are made. They are three piece suits, blouse, skirt and bloomers, some trimmed with rows of white braid, others have wide sailor collars of white or red and braid trimmed.

Traveling Skirts

New arrival. Fine dress skirts made of brilliantine; with a circular tucked flounce, unlined and extra light weight, colors black, marine blue and grey, price \$5.50. Black silk taffeta skirts, of which we show some extra good things, nicely trimmed and ready sellers. One at \$12 that is excellent value.

Summer Petticoats

Your attention we wish to direct to two numbers that are under price. The 69c ones are made to wear under light muslins and dimities, have a flounce of accordion pleating, material and imitation of silk; colors pink, blue and yellow. The \$1.00 skirts of which we have about 6 dozen, come in a variety of neat styles, duck Galatea cloths, etc., well made and serviceable.

For Men

We have men's summer shirts and drawers at 25c and 50c, but the 50c grade is the one we sell the most of. It is a fine halbrigan quality and better for 50c cannot be found. Our men's halbrigan Union Suits at \$1.50 are high grade garments and unequalled for comfort. Night Shirts at 60c, 75c and \$1.00, the best that money can buy; they have the right kind of material in them and give satisfactory wear. The next time you want a good night shirt think of these. An Unnumbered White Shirt that is better than any merchant can buy today, because we bought them before the price advanced, is the shirt that we offer at 50c—while they last buy all you need for some time to come, good investment.

MAKING A HIT ON OUR BOTTLED ALE is what we are doing with every one that tests its delicious flavor and strengthening qualities. Pale Ale, 2 doz. pks. \$2.00. Cream Ale, 2 doz. pks. \$1.50. SOUTH SIDE BREWERY Phone 141.

WHAT IS MEANT BY GOO-GOO EYES

A Cincinnati Editor Attempts to Explain the Expression—No Possibility of Mistaking them.

This important, impressive, by no means impertinent, query, has sifted through the mails from Sadieville, Ky.: "Dear Mr. Editor: Will you please explain what is meant by goo-goo eyes?—Constant reader."

Why, certainly. But, first, why should explanation be necessary to a grown-up man? Constant Reader writes with the well formed style of adult expertness. Can it be that he is one of those kissless Chicago professors in disguise? Surely, the period of his youth cannot have passed and the penetrating glance of conscious sweatheartedness not have pierced the phlegmatic texture of his gum-a-rubber heart!

But, to the task of definition—an enjoyable duty, easy of performance. Goo-goo eyes are—um—yum—well—why, goo-goo eyes, of course. Don't you understand? Oh, that kind you can't endure for your girl to cast at the other fellow. You know! Just make you turn green with jealousy when she darts those coquettish glances out of the left corner of drooping lids in the direction of that rubbering rival. O, when she tosses them at you, that's different. Your pulse jumps up to 140 and you have to double your tongue to keep your heart from jumping out.

Goo-goo eyes? Why, goo-goo eyes are love looks. That's it! See? Love looks! How simple! It's a wonder you wouldn't know without asking. Don't you remember the poet telling you that "eyes looked love"? Those are they—those goo-goo eyes!

Of course, you goo-goo right back again if you are "it." If his rubbership, the hated rival attempts to declare in on the goo-goo game, your proper recourse is to promptly black both his, so he can't goo.

But, that aside, it is perfectly plain now, isn't it? No possibility of your mistaking a message in optical telegraphy? In case of any lingering doubt, however, better give yourself, the better and the other fellow the worst of it. Goo, whether or not you are sure she is goo-gooing, or, if she is, that she is goo-gooing at you or at him. It's catching, violently contagious. You have only to keep gooing and she'll soon goo-goo. Once the circuit is complete and the current coursing, you won't need any touting on what's what and who's who. You can read the answer in the stars; you'll see meteors and comets, and double-ringed fixed systems. The electric thrill that there and then begins to chase itself through the highways and bypaths of your anatomy will make extraneous explanation superlatively superfluous.

With this perfectly lucid diagram experiment should be easy. Experience is, after all, the only school where love lessons are satisfactorily learned.—Editorial in Cincinnati Commercial-Tribune.

DUCK'S BATTLE WITH HAWK

She Bravely Defends Her Newly Hatched Brood and Escapes

A green winged teal is the heroine of Ernest Seton-Thompson's new story in the Ladies' Home Journal for July. After her brood was hatched she started to take them across a pond. "This was a mistake," Mr. Seton-Thompson writes. "For it exposed them to enemies. A great marsh hawk saw them, and he came swooping along sure of getting one in each claw. 'Run for the rushes!' called out the mother. 'Greenwing, and run they all did, patting over the surface as fast as their tired little legs could go. 'Run!' cried the mother, but the hawk was close at hand now. In spite of all their running he would be on them in another second. They were too young to dive; there seemed no escape, when just as he pounced the bright little mother gave a great splash with all her strength and, using both feet and wings, dashed the water all over the hawk. He was astonished. He sprang back into the air to shake himself dry. The mother urged the little ones to 'Keep on!' and keep on they did. But down came the hawk again and again he was repelled with a shower of spray. Three times did he pounce, and three times did she drench him. Now all the downlings the angry hawk made a lunge at the mother, but she could dive, and, giving a good-by splash, she easily disappeared."

JOSEPH JEFFERSON AT 72.

Great Comedian Seems to Have Found Perpetual Youth Fountain

"In Florida, where Ponce de Leon failed to find the Fountain of Perpetual Youth, Joseph Jefferson seems to have found it," declares James S. Metcalfe in the Ladies' Home Journal for July. "He is a picturesque figure. His ruddy cheeks and bright eyes give the lie to his seventy-two years. He is slender, but not with the leanness of age. His hair, mostly black, streaked only here and there with gray, and in length showing a wholesome contempt for the fine art of the barber, blows about in the breeze. His fingers are as quick and deft in knotting a line or adjusting a sinker as those of a boy on the banks of a stream, and he enters into every detail with boyish enjoyment. His fishing he alternates with landscape painting, writing and the care of plants. In none of these pursuits does he claim professional skill, but he brings to them something more than professional zest. Mr. Jefferson is a very abstemious man. In eating, as in other things—except occupation in the open air—he evidently believes in moderation as a means to well living and long living. He did not join in our after luncheon, smoke, stating that if he had not given up tobacco a good many years ago he felt sure he would not be with us now. Whatever the secret of his long and useful life, it is safe to say that every one of his countless friends and admirers would be glad to lengthen it by a fulfillment of his own Rip's favorite benediction: 'Here's his health and his family's, and may they live long and prosper.'"

Low Rates to Buffalo Exposition. Via the Nickel Plate road. Three through trains daily, with vestibuled sleeping cars, and excellent dining car service, meals being served on the American Club meals plan, ranging in price from 35 cents to \$1.00. Calahan, general agent, 111 Adams street, Chicago, for full particulars and folders showing time of trains, etc.

tions 2nd Supt. Dist., Rock Co., Wis.

The Annual Normal Institute will convene in the High school building, at Janesville, Monday, July 8th, 1901, at 10 o'clock a. m., and will continue in session, three weeks. As it is intended to make the examinations depend largely upon institute work, teachers should plan to attend. Teachers who have taught may have their papers re-filed on not to exceed five branches. No certificate will be renewed or extended. After January 1st, 1902, applicants for 3rd grade certificates will be examined upon the Manual of the Course of Study and Elements of Agriculture. Excellent opportunities for the study of these branches will be given at the institute. Teachers will bring text books and Manuals of Course of Study. Board may be obtained at reasonable rates. The following gentlemen will act as conductors:

Supt. H. C. BUELL, PRIN. R. E. LOVELAND, PROF. A. A. UPHAM. 3rd Grade examinations will be held as follows: 2nd Inspection Dist., Towns of Beloit, Rock and La Prairie; Atton, August 6-7. 1st Inspection Dist., Towns of Clinton, Turtle, Bradford, and Village of Clinton; Clinton, August 13-14. 3d Inspection Dist., Towns of Milton, Lima, Harmony, Johnstown; Milton, August 20-21.

Very truly yours, DAVID THURNE, Co. Supt. 2nd Dist.

You may as well expect to run a steam engine as to find an active, energetic man with a torpid liver and you may know that his liver is torpid when he does not relish his food or feels dull and languid after eating, often has headache and sometimes dizziness. A few doses of Chamberlain's Stomach and Liver Tablets will restore his liver to its normal functions, renew his vitality, improve his digestion and make him feel like a new man. Price, 25 cents. Samples free at People's Drug store and King's Pharmacy.

TELLS OF AWFUL TORTURE IN PRISON

Woman Prisoner of Hudson Reformatory Describes Medieval Tortures—"Light Cells" the Worst.

New York, June 27—Elizabeth Doyle of Poughkeepsie, who has just completed a five years' sentence in the Hudson reformatory, tells a painful story of the punishment inflicted on refractory prisoners. The so-called "light cell" she calls the worst. She says of it: "The light cell is about twice as long as I am and about eight feet wide. It is very high. The walls are whitewashed and there is no carpet. The ceiling is all glass, like a greenhouse. In the middle of the floor there are two short chains fastened to the boards, with handcuffs on. The handcuffs are fastened on the woman and the chains are long enough so she can either lie down or sit down, but never stand up. The chains ain't long enough so's she can ever cover her face."

"When they take her there in the morning the sun comes so's it falls on one of those white walls. She is fastened facing it. The chains ain't long enough so's she can ever cover her eyes. By sitting up as long as she can she can keep her face turned away. Then she lies down on the floor about noon, because she gets worn out."

"That's when the sun blazes down through the skylight. She lies there on the floor, facin' it, with the chains so that she can't cover her face. The sun beats in on her face and falls on the whitewashed walls. When she sits her eyes the cell looks all blood red, and she can't see anything when she opens them but the red and the sun. An hour of this drives her more crazy and sets her head thumping. But she can't get away from it. As the sun gets down it makes the white walls light, but the minute the room gets dark at all they turn on the electric light. There's rows and rows of the lights, and they burn all night long, right down in the eyes of the woman chained there. They burn till the sun comes up. Three times a day food is brought in—the door opens like a safe and there's another door outside. Whoever brings the food doesn't speak."

"They leave her there a week or ten days, or two weeks. They have got three cells and sometimes they are all filled at once. So is the two dark cells they've got."

"After the first day the girls that have been in the light cell say their heads ache so they get so they can't think. They see all fire, red lights and swords in front of their eyes. An' every sword cuts them—oh—I've heard them scream and scream; 'It's cuttin' into my eyes'—'It's cuttin' both my eyes out'—when I've gone to bring them out. They say the pain is so awful they can't describe it."

"When I've gone in with the guard to get 'em out, I've found them lyin' in a dead faint and their food was then twisted up and wrinkled so's you wouldn't know 'em. Sometimes they were crazy as they could be—singin' an' tellin' about colored balloons and fireworks. I've seen half of 'em took to the insane asylum, an' the result go from faintin' spells into hysterics when they come out."

Special Train Excursion to Clear Lake, Ia. Via the C. M. & St. P. Ry., on Saturday and Sunday, June 29th and 30th. Special Free Program. Balloon ascension and parachute descent at 1:30 p. m., by Madame De Leon, of Rockford, Ill. Band concert and musical entertainment at 2 p. m. in pavilion at Clear Lake Park. Unnecessary Loss of Time.

Mr. W. S. Whedon, Cashier of the First National Bank of Winterset, Iowa, in a recent letter gives some experience with a carpenter in his employ that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled that Chamberlain's C. Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the druggist here and informed me that one dose cured him, and he is again at work. For sale by People's Drug Co., and King's Pharmacy."

Call at King's pharmacy or at the People's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. They are an elegant physic. They also improve the appetite, strengthen the digestion and regulate the liver and bowels. They are easy to take and pleasant in effect.

Up's Price of Sugar. New York, June 27—The American Sugar Refining Company today advanced all grades of refined sugars five points, or one-twentieth cent of a pound.

EASILY DECIDED.

This Question Should be Answered Easily by Janesville People.

Which is wiser—to have confidence in the opinions of your fellow citizens or depend on statements made by utter strangers? Read this:

Mrs. N. J. Casey, of 10 1/2 Prairie Ave., says: "Doan's Kidney Pills proved better than any other medicines I took for my kidneys. These organs troubled me off and on for some years. Backache was the chief symptom and often caused me to suffer severely. I tried a number of remedies but continued to grow worse instead of better. I was finally persuaded to try Doan's Kidney Pills and procured a box at the Peoples' Drug Co.'s store. I only took them a few days when I felt better. Should there be any recurrence of my trouble I now know what to use."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for U. S. Also on sale at King's Pharmacy. Remember the name Doan's and take no substitute.

Call at King's pharmacy or at the People's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. They are an elegant physic. They also improve the appetite, strengthen the digestion and regulate the liver and bowels. They are easy to take and pleasant in effect.

Up's Price of Sugar. New York, June 27—The American Sugar Refining Company today advanced all grades of refined sugars five points, or one-twentieth cent of a pound.

A Wife Says:

"We have four children. With the first three I suffered almost unbearable pains from 12 to 14 hours, and had to be placed under the influence of chloroform. I used three bottles of Mother's Friend before our last child came, which is a strong, fat and healthy boy, doing my housework up to within two hours of birth, and suffered but a few hours' pains. This liniment is the grandest remedy ever made."

Mother's Friend will do for every woman what it did for the Minnesota mother who writes the above letter. Not to use it during pregnancy is a mistake to be paid for in pain and suffering. Mother's Friend equips the patient with a strong body and clear intellect, which in turn are imparted to the child. It relaxes the muscles and allows them to expand. It relieves morning sickness and nervousness. It puts all the organs concerned in perfect condition for the final hour, so that the actual labor is short and practically painless. Danger of rising or hard breaths is altogether avoided, and recovery is merely a matter of a few days. Druggists sell Mother's Friend for \$1 a bottle. The Bradford Regulator Co., Atlanta, Ga. Send for our free illustrated book.

Unnecessary Loss of Time.

Mr. W. S. Whedon, Cashier of the First National Bank of Winterset, Iowa, in a recent letter gives some experience with a carpenter in his employ that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled that Chamberlain's C. Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the druggist here and informed me that one dose cured him, and he is again at work. For sale by People's Drug Co., and King's Pharmacy."

Call at King's pharmacy or at the People's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. They are an elegant physic. They also improve the appetite, strengthen the digestion and regulate the liver and bowels. They are easy to take and pleasant in effect.

Up's Price of Sugar. New York, June 27—The American Sugar Refining Company today advanced all grades of refined sugars five points, or one-twentieth cent of a pound.

WISCONSIN WEATHER FORECAST.
Continued warm, generally fair to night and Friday.

MORE NONSENSE

The continued fight on the C. M. & St. P. R. R. company is a disgrace to the city. The common council possesses the authority and does not hesitate to exercise it, when that organization must know that public sentiment is with the railroad company and that every movement by way of opposition is detrimental to the city.

It requires neither brains nor ability to be an obstructionist. There may be a little glory connected with this kind of work, but it isn't of the class that reflects credit or produces profit.

It is possible for the council, with its penny wise and pound foolish policy to do the city a permanent injury. In fact it looks as though the mischief had already been accomplished.

These six wise men, who pose as obstructionists are six very ordinary mortals when deprived of power. If they have any good reason for the course that they are taking it is about time that he public knew something about it. They seem possessed of the notion that public sentiment is with them, but if they are of this opinion they are the worst deluded set of men that ever enjoyed cheap notoriety.

The Gazette does not hesitate that if the questions in dispute were left to the voters and taxpayers, that fully ninety per cent. would be with the railroad company. It is about time for the council to get into line. The city is entitled to better treatment.

ATTITUDE OF RUSSIA.

Count Cassini, Russia's representative to America, sailed yesterday for Russia, carrying with him Sec. Hay's explanation of Sec. Gage's countervailing duties on certain Russian products.

Count Cassini has shown himself to be a shrewd diplomat and has repeatedly assured the president of the friendliness of the czar's government for our own.

Understanding the attitude of Pres. McKinley as he does, the count should have no difficulty in persuading his government that Sec. Gage's mistakes (if they are mistakes) do not show any animosity towards Russia, and all will be satisfactorily explained when the courts have passed on them.

Russia is not intending to join any coalition against American tariff, but is simply looking after her own interests the same as every other country.

From Austria's attitude it has been reasoned that such a coalition was being formed but it is now definitely known at the state department that Austria's efforts have been futile so far, and Sec. Hay is trying to keep faith with the individual countries and at the same time explain the mistakes of the treasury department.

Russia has adopted reprisals in the form of a second increase in duties on American goods, because she does not admit the correctness of Sec. Gage's interpretation of American tariff laws.

The entire American trade with Russia can be irretrievably lost while waiting for the decision of the courts; and we must not be blind to the fact that Germany is gobbling up every dollar that we lose in trade with Russia.

Up to the present time agricultural machinery is unaffected by Russia's action, and if that industry is the object of her next attack it will prove a serious matter, as our shipments of agricultural machinery to Russia alone exceed all others combined.

It is probable that Sec. Gage is ignorant of the facts of this case than that he would knowingly mislead his own government.

REFUSE TO BE LOYAL.

The constitutional convention of Virginia has been debating the questions of disfranchisement of the negro and loyalty to the government.

A republican member warmly advocates the measure which requires the taking of the oath of office in which the candidate promises support to the constitution of the United States, but the convention refused to concur by a direct vote.

The majority seem to be determined upon the disfranchisement of the negro so far as it can be done. A clause has been inserted which reads as follows: "All white persons entitled to vote and no others shall be eligible to any office under the constitution and laws of Virginia, except as restricted by the constitution."

The plan provides for primaries for the nomination of all state officers and United States senators. We can see in this convention the desire to plunge the negroes further in the background as far as poli-

tics are concerned, instead of any desire to educate and train them for the duties he has a right to perform. It is the ignorance of the negro that causes most of the conflicts in the South and yet they refuse to remove that ignorance and prefer to accentuate it by refusing it the opportunities of white persons.

The refusal to compel allegiance to the United States constitution is significant. South Carolina once felt the same way and paid for it dearly.

FOREST PRESERVATION.

Apropos the flood in the Elkhorn valley it is worth while to call the attention of all to the recommendations passed by the Forestry Division of the government. The planting of trees, the precaution against forest fires which cost the country \$50,000,000 annually, and prohibiting of sheep grazing in some sections would decrease to an appreciable extent the danger of floods, and insure safety where naught but danger menaces.

Gov. Allen has called a meeting of the legislature of Porto Rico, July 1, when it is expected the treasurer will show the island is self-supporting. It is expected that the president will then exercise his privilege granted by the Foraker act and proclaim free trade for the islands.

Green Bay Gazette.—A beautiful city means a progressive city. There is one way by which property values can be enhanced more rapidly than by devoting reasonable expense towards making streets and residence property attractive to the eye.

Northwestern University at Evanston is likely to be known as Deering University hereafter. The alumni and faculty are unanimous in the opinion that the present name is a misnomer, and the university should perpetuate the name of its benefactor, John Deering.

The Kansas City combination are trying to investigate the principles of the Famous Chicago Platform so they will dominate the democratic campaign of 1903. This early action may be of serious political significance.

Col. Bryan has been asked to sit in the den of lions at Buffalo for his photograph, but he declined, remarking that the octopuses were his meat.

Gov. Pingree at his death was the owner of the largest boot and shoe factory in the West. He learned the trade from a cobbler while a soldier in the civil war.

UP-RIVER NOTES

With the advent of warm weather people are beginning to seek the cooling shade of the up-river resorts. S. M. Fisher and C. C. Searles have established a pleasant camp in the grove of trees near the old site of Buob's grove, where they expect to spend the most of the summer.

They are convenient to the road and have only a fifteen minute run to the city on a bicycle.

Will Conrad has been building a cozy cottage on the west shore, where he and his family expect to take solid comfort this summer with the family of Theo. Goldin and visiting friends.

Mr. and Mrs. A. C. Kent are again seen at their summer home, "Cliff House."

Jack Harlow and family are again to be found at the yellow cottage near Mrs. Burr's.

The idyllic people have made extensive improvements in their grounds since they moved to their new situation. The cottages have been re-painted, a rustic bridge has been built and their spring enlarged and improved with a handsome tile basin.

Mr. Caldwell, about a mile above the bridge on the east bank, has been clearing out underbrush, trimming trees and preparing to build a cottage. Ellendale Park it is likely to be called from Ellendale's farm, his adjacent property.

Walter Helms and E. F. Brown have established a camp and built a cottage on a part of the Ellendale Park. The corkscrew bridge, Hoodoo Island and the lagoon are points of interest. On perspiring enthusiast suggested that it be called Work-a-While camp from the vast amount of work necessary to reclaim the wilderness, but the cook suggested Eat-a-While as the most appropriate cognomen. Passing boats are invited to call and sample different varieties of spring water.

Several private picnic parties are planned for up-river on the Fourth of July.

Excursion to Janesville.

A single fare rate for the round trip will be made from Madison and Beloit to Janesville on account of Prof. Gleason's horse taming exhibit Friday evening. In place of a fare and a third as stated in last evening's paper. The special train returning to Beloit will go over the C. M. & St. P. Ry. instead of the C. & N. W., after the performance.

New Northwestern Time Card

When the new time card goes into effect Sunday on the Chicago & Northwestern railroad train No. 528 will leave here at 7:10 a. m., arriving at Chicago at 9:40 a. m., except Sundays. In place of leaving Janesville every day except Sunday at 4:10 p.

m. it leaves so-a sto connect at De Kalb in place of Belvidere with the Overland Limited for Omaha and western points.

John H. Unwin Dead

John H. Unwin died at the Rock county poor farm last evening of stomach trouble. He was about sixty years of age and has no relatives in this city. The deceased came to this city about twenty years ago with horses for Alexander Galbraith and remained in his employ for several years. When he came to this city he left a wife and family in Montreal but whether they are still alive is not known. Word of Mr. Unwin's death will be sent to Montreal. Deceased has been at the poor farm for about three years. The interment will be in Oak Hill cemetery.

WHEAT FIELDS ABLAZE.

Several Thousand Acres in Kansas Burned by Engine Sparks.

Ableton, Kan., June 27.—Reports from western Kansas say a freight engine set fire to wheat fields between Ellis and Russell, and that several thousand acres were burned over. The flames were as high as a train. Many harvesters were in the fields, and as the flames were driven by a high wind they unhitched the horses from the headers and ran for their lives. Many machines were burned.

California Field Afire.

Los Banos, Cal., June 27.—An immense grain fire is raging nine miles south of here. Ten thousand acres of grain have been burned and a still larger area of grain land has been swept by the flames.

Lost Lives in Burning Mine.

Wilkesbarre, Pa., June 27.—A large breaker at No. 2 mine of the Delaware and Hudson company in the eastern part of the city was destroyed by fire. The flames communicated to the headhouse and fanhouse and then extended down the shaft. Condy Connor, Jack Bucks, Peter O'Donnell and John Bugdale, who were at work in No. 2 mine when the fire broke out, are missing. It is possible that they failed to reach the surface and were suffocated by gas, which rapidly accumulated after the fire. The loss will be fully \$100,000. Seven hundred men and boys will be thrown out of work until the breaker is rebuilt.

Stores of Tobacco Burned.

Mayfield, Ky., June 27.—Fire destroyed property here worth probably \$200,000. Seven tobacco rehandling houses, a large quantity of tobacco, a cooper-shop and 232 small residences and business houses were destroyed. The principal loser was the tobacco warehouse firm of Ligon, Allen & Co., who lose 400 hogsheads of tobacco. Their loss was about \$50,000, with \$10,000 insurance. Scores of persons were rendered homeless by the fire and hundreds thrown out of employment.

Woman Dies at a Fire.

Chicago, June 27.—Mrs. Rosa Munsch dropped dead from excitement at a fire. The building near her home was discovered to be in flames at midnight. Mrs. Munsch, who was 64 years old, ran out of her house to the street and became hysterical. Her daughter and several policemen tried to quiet her but without success. She fell to the walk and expired immediately. The fire was extinguished with little damage.

Lost 50,000 Barrels of Oil.

Decatur, Ind., June 27.—During a storm lightning struck a tank of the Standard Oil company, containing 50,000 barrels of oil, at Preble; setting it on fire. The tank exploded, the burning oil flowing over the surrounding country, destroying much property. Residents of Preble fled from their homes. Many people were burned, but none fatally.

LATEST FOREIGN NEWS.

British Navy in Decline.
London, June 27.—The Navy league, with a view to enlisting public attention, has issued a striking manifesto in which it emphasizes the deficiency of the fleet of Great Britain, especially in the Mediterranean squadron. The Navy league declares there is a deficiency in all classes of vessels, from battleships to destroyers, as well as a complete absence of fleet auxiliary of all kinds, while many items, such as smokeless powder, telescopic sights, etc., necessary in a fighting fleet, are lacking.

MAN KILLER HORSE WILL BE SUBDUED

Greatest Battle Between Man and Horse Ever Witnessed in the State of Wisconsin.

Janesville Fair Grounds, right in front of the grand stand, Friday night, June 28, the great and only Prof. O. R. Gleason will attempt to tame the most vicious horse in Rock county and there will be one of the greatest performances ever given in Janesville and will enable our people to see him tackle Weyler, the butcher, as the most vicious horse in Rock county. Prof. Gleason has arranged to run excursions from Madison and Beloit here to this city for one fare. The Beloit special train leaves the C. M. & St. P. station at 11:30 p. m. and the Madison train leaves at 12:10. Weyler is said to be a terrible beast and a desperate struggle for his subjection is unavoidable. Prof. Gleason is confident of being able to conquer but those who know the horse have their doubts. Prof. Gleason will exhibit on the Fair Grounds. He will visit Rockford next and then go to Toledo Ohio.

This will be the one great treat of your life and never again will you have a chance to see the great Gleason.

Gleason will exhibit his great gun powder methods this night, giving the public the same great exhibition he gave in Boston, New York and Chicago. Nothing but the most vicious horses in Rock county will be tamed by Gleason.

Only 50 cents to see this, the greatest display of horse taming ever witnessed in the state of Wisconsin. Children under twelve years of age admitted free if accompanied by their parents.

All teams are admitted free to this grand and glorious exhibition which will be worth coming many miles to witness. Parties are now being gotten up to attend in a body, and much interest has been created over the event in many outlying towns.

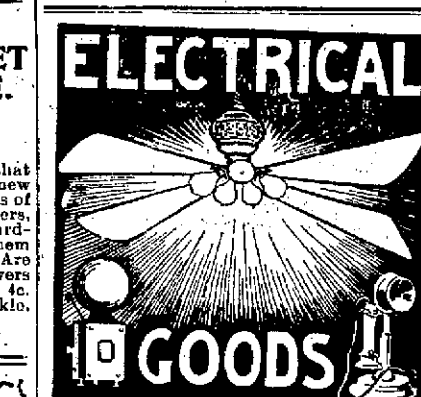

More Liberty for Newspapers.

St. Petersburg, June 27.—The czar has freed all newspapers and other periodicals from all warnings, interdictions and punishments and has decreed that such warnings and interdictions expire hereafter within definite periods.

ELECTRICAL
GOODS

Makes Life Bearable.

On this hot weather, fanning ones self causes more heat than it cures. Let electricity make the winds blow, not violently, but breezily, delightfully, coolingly. The cost of a fan isn't worth speaking of when compared with the comforts it affords. Why perspire when the sleeping zephyrs only need be awakened by electrical energy to bring mountain air to sufferers in town? A fan only costs \$12.00 and no wards, and very little to operate.

Archie Reid & Co.
DRY GOODS, CLOAKS, MILLINERY

Summer Corsets

Manufacturers of the various lines have produced styles that are meeting with great favor. In the P. N. line No. 115 is a well made, well boned, lattice work corset with 13 inch front steel, sizes 18 to 30—price 50 cents. No. 75 is of better netting, top and bottom lace and ribbon trimmed, 4 hook front steel, a splendid straight front corset, sizes 18 to 30, price 75 cents. In the W. B. line is No. 705, erect form shirt waist corset, made of fine light weight batiste, 12 inch front steel, low bust, in sizes 18 to 26; price \$1.00. No. 87 is of same material but made in bodice shape; price \$1.00.

Saline Perfect Form and Corset Combined

is identified by having no hooks, no clasps, no strings, no laces, no heavy steels. No corset necessary, as it is a corset and form combined. Leading tailors fit their garments over this form, which gives the wearer a natural and perfect figure with the proper shape and curves. Recommended by leading physicians as a health preserver, causing no pressure on the lungs or stomach. Sizes 20, 22, 24, 26, 28, white only, price, \$1.00.

Summer Skirts

A line of wash lawn, petticoats in plain colors and light fancies, made with 3 cord wide ruffle, \$1.00. One made of feather-weight plain black silkette, \$1.50. Another of the same material in black and white stripe, \$1.75. All above lines made with adjustable bands.

Summer Underwear

Muslin garments, such as gowns, skirts, drawers, chemise and corset covers. Just received another lot of those Empire style all lace corset covers, sizes 32 to 38, at 85 cents. LIBRARY SITE BUILDINGS SOLD

BOUGHT BY J. M. BOSTWICK & SONS AND J. J. CUNNINGHAM.

Small Building Brought \$1,550 and the Larger One \$1,760—The Barn Brought \$135—This Brings the Total Cost of the Site to the City at \$16,855.

The city realized \$3,445 from the sale of the buildings on the Wood's property recently purchased by the city for a library site.

Some time ago the property was placed in the hands of D. W. Watt for private sale, but as no satisfactory offer was received for the buildings it was decided by the board that they would dispose of them at public sale. The auction took place this morning at 10:30 o'clock and was conducted by W. T. Dooley. He stated to those assembled that the terms of the sale were cash with thirty days in which to remove the buildings from the property.

The barn facing on Park street was first disposed of. Horatio Nelson opened the bidding by an offer of \$100. Several \$5 raises were made and the barn was finally struck down to George Charlton for \$135. Mr. Charlton has not decided what he will do with the barn. The lumber in it is worth much more than he paid for the building.

The next building sold was the house on the corner of South First and Park streets. The house is in excellent repair and Auctioneer Dooley announced that the hot water heating plant cost over \$1,000.

Dr. E. H. Dudley the bidding with an offer of \$500 from which figure it was gradually raised to \$1,000 by Dudley, Jas. A. Fathers and O. F. Nowlan. Tracy Brown then bid \$1,025 and J. M. Bostwick & Sons \$1,050. Brown and Bostwick continued bidding until finally Bostwick bid \$1,550 and Brown dropped out.

J. M. Bostwick & Sons own several lots at the corner of Court street and Ruger avenue and will move the building to that place.

The large building—used by Dr. Woods as a residence was next offered for sale. J. J. Cunningham opened the sale by a bid of \$800 which was quickly raised to \$1,000. From then on the bidding was between Cunningham and Brown. They kept the ball rolling until the figure was finally brought up to \$1,760 by small bids. The latter bid was made by Mr. Cunningham and secured the property for him.

It is understood that Mr. Cunningham was bidding in the interest of Mrs. Thomas Graham, who owns property at the corner of South Main and South First streets just south of the building and will move it to that place.

The library site for which \$20,000 was paid is reduced by this sale to \$16,855.

It is the intention of the board to have the buildings all removed and ready for the starting of the foundation inside of thirty days. The price realized by the city for the buildings is about one-eighth of what it cost to build them, and the heating plants are worth almost what the entire buildings sold for.

J. M. Bostwick & Sons and J. J. Cunningham certainly bought some fine buildings at a low price.

HELEN FIFIELD IS ON HER WAY HOME

Continued From Page 1.

news was at once circulated around the city to the relatives and friends of the family who have been in deep sympathy with them during their time of trouble.

Immediately after the receipt of the message, Mr. Fifield telegraphed his brother, James S. Fifield, who was in Chicago to see that some one met the Buffalo train on their arrival in that city. The family had received no word from Chicago during the day up to the time the dispatch was received by the Gazette which corroborates the message received last night by Mr. Fifield.

They are overjoyed at the latest news which has removed all doubt of her safety from their minds.

Evelyn Louise Brunson Dead

The home of Mr. and Mrs. Will Brunson, on Wall street, is saddened by the presence of death of their infant daughter, Evelyn Louise, having closed her eyes forever this morning at 4:45 o'clock. The little one was only three months old, having been born on the 14th of last March. The pride of the home centered in the little one and the parents are almost inconsolable in their great grief.

This is the third time that Mr. and Mrs. Brunson have been called to mourn the death of a daughter and there now remains only one little son in their family circle. Little Evelyn suffered terribly before her death having been sick for over three weeks with gastritis and a complication of heart trouble. The bereaved parents have the sympathy of many friends.

Ends Life at Wedding Hour

Clarinda, Iowa, June 27.—Thomas J. Rogers, who was to be married to Miss Elnez C. Plank, a highly respected young woman of this city at 6 o'clock last evening, shot himself through the head at that hour instead of going to the home of Miss Plank, where the ceremony was to have been performed. The ball entered the skull just above the ear and passed back through the head. Rogers died about an hour after the shooting.

Oscar Gardner Put Out

Denver, Colo., June 27.—Oscar Gardner and Young Corbett met last night before the Denver Wheel club for a 10-round bout, but the police stopped the fight in the sixth round. Young Corbett had the best of the argument from the start and had knocked Gardner down five times in the last round, and had him practically out when the police interfered and the referee gave him the decision.

EVANSVILLE SEES PRETTY WEDDING

Mable E. Snashall and Fred Janes, Two Popular Young People, Married Yesterday.

Mr. and Mrs. G. H. Rumrill, Misses Fannie Rumrill, Nellie Rumrill and Carrie Janes and Roy Dennie of this city, went to Evansville yesterday to attend the wedding of Miss Mabel E. Snashall and Fred J. Janes, both of Evansville. The groom is a brother of Miss Carrie Janes.

The wedding was one of the most brilliant ever held in Evansville. The ceremony was performed at the home of the bride's parents, Mr. and Mrs. Albert Snashall and there were about 150 guests. The bride, handsomely attired in white, was attended by Miss Ida Young and Mr. Gordon of Chicago, was the groom's attendant.

The ceremony was solemnized by the Rev. Wallace Short, pastor of the Congregational church, assisted by the Rev. Granger W. Smith, pastor of the Baptist church. Exquisite music was furnished by an orchestra.

An elegant wedding supper was served after the ceremony and congratulations. The bride is one of Evansville's most popular young ladies and was formerly a teacher in the Evansville High school. Mr. Janes, who is one of Evansville's prominent lawyers, also taught in the same school, and afterward took a law course at the University of Wisconsin.

Mr. and Mrs. Janes were registered at the Grand Hotel in this city last evening, having outwitted the crowd which had assembled at the Evansville depot. The crowd had a number of practical jokes ready for execution, one of them being to lock a metal collar around the groom's neck that he could not get it off without the help of a machinist. In some manner the groom became aware of the plans and on the way to the depot he and his bride left their carriage for another one and two of their friends rode to the depot in their places while Mr. and Mrs. Janes were well started on their way across the country. The rice and old shoes meant for them were bestowed on a newly married couple who got off the train at Evansville.

DR. EDDEN'S HORSE IN A RUNAWAY

Considerable Excitement Downtown This Morning by the Antics of a Nag Attached to a Buggy.

While the sale of the Woods houses was going on this morning considerable excitement was raised in that vicinity by a runaway horse, attached to a top buggy. The horse and buggy belonged to Dr. R. W. Edden, who was out making a professional call on a patient on Locust street. Before the horse had always been very kind and was not afraid of anything. Dr. Edden snapped a chain which was attached to a post in front of the house into the horse's bit and started into the house. A dog ran out of the yard and began barking at the horse, who jumped back and broke the chain. When he was loose he whirled around and started for town on a run. The young man with Dr. Edden grabbed the horse by the head but could not hold him and after being dragged for some distance, let go.

The horse continued on towards town and came down Pleasant street on a run. He crossed Court Street bridge and when Park street was reached turned down towards the jail. On the east side of Park street a short distance from Court street is M. A. Edgington's blacksmith shop. The large front doors stood open and quick as a flash the horse turned and went into the shop. He ran the length of the building going over kegs of horse shoes and other blacksmith supplies to the rear end of the shop, where a single door leading out onto Main street stood open. The horse went through the door all right but the buggy caught, causing the harness to break, freeing the horse who was caught by some men who were attending the sale.

The only damage to the rig was a broken whiffletree and a broken harness. The horse had one or two places on its hind legs where the skin was knocked off, but otherwise was all right. It so happened that when the horse ran through the blacksmith shop there were no horses standing on the floor but the men had to do some lively jumping to get out of the way.

LATE TELEGRAPHIC NEWS

CAUGHT ROBBING THE DEAD

Farmer Boys Arrested at the Wabash Wreck.

DEAD NUMBER FOURTEEN.

Four Others Are Fatally Hurt, Eleven Seriously and Thirty Slightly Injured.—Heroism of a Fourteen-Year-Old Newboy Who Was Badly Hurt.

Peru, Ind., June 27.—Late reports show that fourteen persons killed, four others fatally hurt, eleven seriously and thirty slightly injured, is the result of the accident on the Wabash railway at a point nine miles west of this city.

David Tucker and Ernest Zimmerman, farmer boys, were arrested at the scene of the wreck, charged with robbing the dead and injured of money and valuables. Two policemen were at the wreck, and but for their determined attitude the prisoners would have been roughly handled by an indignant crowd.

Perhaps the most heroic figure of the disaster was John F. Williamson, the 14-year-old newboy. Both arms and legs were broken, and he was terribly bruised and crushed. When the surgeons approached him and attempted to afford some relief the little fellow was cheerful and willing to submit to amputation, but said it was of no use, as he could not live. It was said at the hospital to-day that he was the most cheerful patient there, although he has no chances to recover.

Partial List of Injured.

Following is a partial list of the injured:

Mrs. William Cotten, wife of the general superintendent of the Iron Mountain, considerably bruised by violence of the shock while lying in the berth of Mr. Cotten's private car attached to the rear end of the train.

Three children slightly bruised, but not serious.

David Agnew, Green Oak, Ind., right arm badly bruised.

John O'Mara, Denver, Col., right leg broken.

Italian laborer, name unknown, New York, flesh of right leg and right side of body badly torn.

Nicola Polosa, shoulder badly bruised, also head.

John Ickes, New York, badly hurt; about body and head.

Anna Juber, St. Louis, head badly bruised.

Joseph Pozze, Trinidad, Col., head and left foot injured.

Herbert Menger, Hillsdale, Mich., slight injury about face.

Joseph Cruse, Italian laborer, New York city, head and body bruised and left leg.

Mattie Cruse, wife of Joseph Cruse, face, head and body badly bruised; will die.

George S. Milner, Alton, Ill., left leg broken.

John F. Williamson, Bowling Green, O., fourteen years old, newboy on train, both arms, both legs and right shoulder blade broken.

E. P. Clough, Toledo, O., back of head badly crushed, right side and right shoulder blade broken.

John Wilkins, Lafayette, Ind., right arm and shoulder broken.

J. B. Wood, Logansport, Ind., slightly bruised about left shoulder.

G. A. Thompson, Little Rock, Ark., bruised side and head.

William Brode, Angola, Ind., slightly injured on face.

Clark Taylor, Logansport, Ind., badly hurt in the head and body.

Bed-Time.

Going to bed to tumble and toss and dream; to pursue in vain the phantom sleep through long weary hours and rise to a new day unrested and unrefreshed. That is the way with many a woman, who is tormented by the aches and pains resulting from female weakness, and other diseases of the delicate organs of woman. Dr. Pierce's Favorite Prescription was made to cure just such cases and it does what it was made for. It heals ulceration and inflammation, dries debilitating drains, cures female weakness, strengthens the body, soothes the nerves and enriches the blood. It gives lasting strength for the day and sound sleep for the night.

"For three years I suffered continually," writes Mrs. L. J. Dennis, of 326 East College St., Jacksonville, Ill. "I sought relief among the medical profession and found none, until induced to try Dr. Pierce's Favorite Prescription. When I commenced taking this medicine I weighed ninety-five pounds. It built me up until now I weigh one hundred and fifty-six pounds—more than I ever weighed before. I was so bad I would lie from day to day and long for death to come and relieve my suffering. I had internal inflammation, a disagreeable drain, bearing down pains and such distress every month. But now I never have a pain—do all my own work and am a strong and healthy woman. Thanks to your medicine."

Biliousness is banished by the use of Dr. Pierce's Pleasant Pellets.

The Rev. Father Welsh, Logansport, Ind., right foot crushed.

Walter Laid, Wabash, Ind., right leg injured.

Charles Flanagan, flagman of train, hurt about body.

John Adams, fireman of train, head and shoulders bruised and torn.

J. S. Butler, injuries side of head.

J. B. Lucks, traveling salesman of Logansport, Ind., slightly injured.

In addition to those mentioned probably twenty or more were injured.

Dead No. All Identified.

Miss Fanny Fuhlyne of New York.

E. K. Plough, express messenger.

The remainder were Italian emigrants, whose names are as yet in doubt. The injured Italians speak no English, or pretend not to, and will give no information.

Down the Embankment.

Train No. 3 is one of the oldest and one of the finest of the limited of the Wabash. From this city we take it made up of two sections—one from Detroit and the other from Toledo—and consists of ten cars. With combined baggage car and express, one combination, one day, one night, three chair cars, three sleepers and the private car of the general superintendent of the Iron Mountain system, William Cotten. The engine was in charge of Engineer W. Butler and fireman John Adams. Both stuck to their posts, and although the engine imbedded itself in soft earth at the foot of a forty-foot embankment, it escaped with slight injuries. The train was one hour late out of the city. It was making up lost time, and, while on a sharp curve, running fully six miles an hour, the engine struck a weakened culvert, derailing itself, plunging down the embankment, and while neither of the two men were hurt the express car and the first chair car telescoped themselves, while the emigrant car in the lead, and, followed by two chair cars, went down on the left side of the track.

The first sleeper of the train was badly crushed and twisted, standing with its forward and hind trucks on each end of the embankment. The sleeper following was twisted and the windows crushed in both ends. The trucks were torn from under the car, but no one in either sleeper was injured. Only the last sleeper and the private car of the Iron Mountain remained on the track uninjured.

Crushed in Emigrant Car.

At the foot of the embankment, so steep that it could hardly be climbed, crushed and jumbled in a mass, with two chair cars on the top of the emigrant car, was where the deaths occurred. There was no warning, simply a concussion, a grinding sound, then a plunge to death below.

The scene that followed was fearful. The cries of the injured and dying were pitiful and little assistance could be given them. It was over one hour before the wreck crew from the city arrived with lights, stretchers and medical aid. The railway people say that the trestle was undermined by the recent heavy rains and gave way under the weight of the heavy engine and train.

Injured Are Cared For.

When medical aid arrived all the injured were brought to the railway hospital in this city. In one place three bodies were piled together; in another four men and one woman, the latter an Italian. In another three Italians were found together, one of them dead and the others seriously injured. The work of rescue was exceedingly difficult owing to the darkness that prevailed and the unusually steep banks.

LATEST LABOR NEWS.

Strikers and Police Clash.

Rochester, N. Y., June 27.—Striking laborers numbering 1,000 had a brisk encounter with the police, in which 11 policemen and 20 rioters were injured. The rioters set out as several times before to drive off the laborers who were at work on street improvements. At Mill and Commercial streets they encountered 50 laborers employed by the Rochester Gas and Electric company in digging a trench, and advanced on them and drove them from the trench.

The workers sought refuge in the power house of the company and the police undertook to disperse the mob. A volley was fired over the heads of the strikers, who, in turn, assailed the policemen with bricks, stones, shovels and pieces of wood. After hurling the missiles the crowd dispersed.

Advance for Tin Workers.

Cleveland, O., June 27.—The conference of the American Tin Plate company's officials with the representatives of the Amalgamated Association of Iron, Steel and Tin Workers' association, which has been in session here for several days, has resulted in the signing of a new wage scale, to go into effect on July 1. The workmen asked for an advance of 10 per cent. Under the new scale they will receive an advance of 2 per cent. Nearly 30,000 men, it is stated, will be benefited.

Gives Employees an Advance.

Cleveland, O., June 27.—The big Consolidated Street Car company, which controls the larger portion of the electric street car service in this city, has granted its 1,200 employees a voluntary increase in wages amounting to about 10 cents a day.

1,000 Tunnel Workers Strike.

Bern, June 27.—The long impending strike of workmen in the Simplon tunnel came to a climax to-day and 4,000 of them went out. They demand a six-hour day, and military precau-

FLOOD IN WEST VIRGINIA

Coal Fields Are Swept by New Storm.

WATER THREE FEET DEEP.

Property in Railroad Yards at Pocahontas Washed Away—Authentic Information Makes Victims of Saturday's Deluge Number More Than One Hundred.

Roanoke, Va., June 27.—Word was received here at a late hour that there had been another cloudburst and heavy fall of rain in the West Virginia coal fields. Pocahontas is damaged more than it was last Saturday, and all railroad repairs are threatened. A railroad operator at Bluefield, W. Va., received word from Pocahontas that the water is three feet deep in the railroad yard and is washing property away.

Hundred Dead in First Flood.

Williamson, W. Va., June 27.—There is no longer any doubt that the list of dead, the result of the recent flood, will exceed 100. The first authentic information received from the scene of disaster was brought today by a party consisting of Judge E. S. Doolittle of Huntington, Judge Flourney of Charleston, and Elias Hatfield, deputy sheriff of Mingo county. They left Vivian on Sunday morning, and had a perilous journey. Judge Doolittle came near being drowned. He tried to wade a swollen stream. Two negroes rescued him. Judge Flourney and Mr. Hatfield gave the negroes \$25 to carry them across the stream. Judge Doolittle said that the flood was as a tidal wave from a cloudburst. Those who attempted to flee to the hills were washed back. The section visited by the flood was thickly settled, but as the population consists chiefly of miners who were at work at the time, the large majority of the dead are women and children. Fifteen persons are reported drowned at Beckman. At Key-stone probably thirty perished. On Dry Fork, the loss of life was great. Bodies are scattered all along the stream. The region from Ennis to Davy, forty-three miles, is completely in ruins. Hundreds of mine mules can be seen in heaps intermingled with human bodies. A report has reached here that fifteen bodies are lodged in a drift at Hatfield tunnel, twenty miles east of this city. Twenty barrels of whisky were caught in the Tug river at Welch. Most of the negro miners are laying off there on a protracted spree, and street fights are many. It is difficult for the authorities to handle the situation. Much theft is reported in the devastated district. The loss of property by the flood on the Elkhorn and the Tug rivers is roughly estimated at from \$5,000,000 to \$8,000,000. The message also said that while no loss of life is reported from the second visitation, the damage to property has been great. The work done by the large force of men repairing the damage of last Saturday's flood has been destroyed in many places.

To Stop the Sale of Cocaine.

Chicago, June 27.—The illegal sale of cocaine, morphine and other narcotics is said to have grown so enormous in the downtown district of Chicago that the Chicago Retail Druggists' association is determined to put a stop to it. Accordingly, 30 of the downtown retail druggists have formed themselves into an organization called the First Auxiliary District Druggists' association. A committee was appointed to investigate the subject and the assistance of the state's attorney will be asked to enforce the law.

Women Hurt by Lightning.

Warsaw, Ind., June 27.—Lightning struck the cottage occupied by Prof. Garrett, at Winona lake, tearing out the northeast corner of the room, in which Mrs. Gaylord, an elderly lady, and her daughter, Mrs. Sutherland, were sitting. Both were severely shocked, and the condition of the former is considered critical. Mrs. Gaylord is the mother of Mrs. John M. Coulter of Chicago, whose husband is a prominent educator.

Five Injured in a Mine.

Brazil, Ind., June 27.—While Sylvester Hadley, William Whittington, Walter Hadley, Frank Sutton and Newton Hadley were building a tippie at the Zeller-McClellan mine the scaffolding broke and they fell 32 feet. Hadley and Whittington were fatally and the other three were seriously injured.

CHANGES IN THE NATIONAL GUARD HODGINS SUCCEEDS GEN. SOLLIDAY

Madison, Wis., June 27.—Governor La Follette late yesterday afternoon appointed Joshua Hodgins of Marinette as quartermaster and commissary of the Wisconsin National Guard to succeed General Albert Solliday of Watertown. General Solliday was a gold democrat, appointed by Governor Scofield.

John C. Salsman of Milwaukee was appointed assistant adjutant general, to succeed Col. Worthie H. Patton of Oshkosh, who has held that office thus far during Adjutant General Boardman's term.

The following were appointed aides-decamp on the governor's staff with the ranks of colonel: James A. Freer of Hudson, Elmer E. Tennant of Ashland, I. Watson Stephenson of Marinette, Abraham R. Cambler of Waunakee, and George N. K. Reinhardt of Milwaukee.

All of the appointees are military men all having been members of the Wisconsin National Guard, and the most of them having served in the war with Spain. General Hodgins enlisted in the national guard and was commissioned first lieutenant of Co. I, Second regiment, infantry, May 1, 1899. He was discharged on May 12, 1899, to volunteer in the Spanish American war, and on the same date was commissioned first lieutenant of Co. I, Second Wisconsin Volunteers. He was promoted to the captaincy of the company July 13, 1899. He served through the war with Spain and was in the Porto Rican campaign, and was mustered out with the regiment on November 9, 1899. When the Marinette company was re-organized and re-entered the Wisconsin National Guard, May 1, 1899, he was again commissioned as its captain. He will now leave the command of the company to become quartermaster general.

Col. Salsman, who succeeds Col. Patton as assistant adjutant general, enlisted in troop A, First, cavalry Wisconsin National Guard, June 5, 1885, was promoted to first lieutenant on November 6, 1889, and became captain of the troop on Dec. 7, 1892, resigning Feb. 4, 1895. Nov. 23, 1897, he again enlisted as a private in the troop and served as an enlisted man until Nov. 22, 1900, when he was honorably discharged on account of the expiration of the period for which he was enlisted.

Of the members of the governor's staff Col. Freer originally enlisted in

Co. C, Third infantry, Wisconsin National Guard. He served from 1897 to May 11, 1898, as quartermaster sergeant of the Third regiment, and on the last named date was mustered out of service with his regiment.

Elmer E. Tennant enlisted as a private in Co. L, Second Regiment, W. N. G., Sept. 24, 1889, was promoted to first lieutenant, October 21, 1893 and went into the Spanish-American war on May 12, 1898, as first lieutenant of the company. He served through the war and was mustered out of the service with his regiment, Nov. 21, 1898. At the close of the war his company did not re-organize and join the national guard.

I. Watson Stephenson is a graduate of a military academy of high standing and from Jan. 4, 1897 to Jan. 2, 1899, served on the staff of Governor Scofield.

Abraham R. Cambler enlisted in Co. F, Fourth regiment, W. N. G., April 29, 1899, was promoted to second lieutenant June 30, 1899, to first lieutenant September 26, 1891, to captain Nov. 1, 1892, to captain and adjutant of the Fourth regiment Feb. 6, 1894 and to major, Fourth regiment, Feb. 26, 1897. He was mustered out July 11, 1898, to enter the volunteer service, and was commissioned major general in the Wisconsin volunteers. He re-entered the Wisconsin National Guard on June 14, 1899, and was commissioned major in the First regiment. He resigned on March 23, 1901.

George N. K. Reinhardt enlisted in Troop A, First Cavalry, W. N. G., March 11, 1892, and was discharged on the expiration of the term of enlistment, three years later.

The National Guard inspection may be held at Camp Douglas this year, during the annual encampment, instead of at the armories of the respective companies. Adjutant General Boardman is considering this plan, but as yet has not decided upon its adoption. The inspection is to be made by Lieut. E. B. Chynoweth of the regular army, who was instructor in military at the state university for a short time. He will report to the adjutant general on July 1. If the plan of inspection in camp is adopted, it will be a drill inspection only, the armory inspection as to arms and equipment and their condition, being then made by another officer.

FENDER THAT WILL DO SAVING WORK

Supt. Hurd of the Local Electric Line
Keeping His Eyes Open
for a Good One.

The risk of crossing the tracks of the trolley cars is so little appreciated in cities, that a few facts in regard to them might be of value.

Few persons in cities walk as fast as three miles per hour, and at that rate it takes a person more than a second and a half to walk the width of a car, seven feet. A car moving at the rate of eight miles an hour moves nearly eighteen feet in a second and a half, and nearly twenty-seven feet when running at the rate of twelve miles an hour. So a person attempting to cross a track in front of a trolley car twenty-seven feet away, when he begins to cross, would be struck before he could get out of the way.

It is part of a motorman's duty to look out for just such threatened accidents, and as a rule they show great coolness and skill in avoiding them. It is however, frequently a physical impossibility to stop a car in time, and a mechanical device for removing endangered persons from the track, especially young children, and old or intoxicated people, has become a necessity which both city and state governments are beginning to recognize.

A car fender that answers all the requirements should be constructed under the following conditions:

It should remove the endangered person from the track if the motorman fails to stop the car in time. It should consist of a projecting cradle, into which a person may fall, and at the time of using touches the ground. It is impracticable to carry a fender touching the ground at all times, and it must be possible for a motorman to drop it, while at the same time his hands are free for other purposes.

It should be so it can be raised again without stopping the car and should be furnished with rollers so it could be dropped on ordinary surfaces without risk of breaking. The front should be in the form of a cushion so as to protect the foot or body of the person struck.

Many people maintain that underneath fenders or wheel guards are sufficient protection. If a car is moving slowly when it strikes a person it may knock him down in such a manner as not to hurt him seriously, but if it is going at any considerable rate of speed the blow would be severe and probably fatal. If the blow does not fatally injure the man he will surely be knocked down and his head striking the pavement or rail is almost sure to be fatal.

A fender that embodies about all these requisites is what Supt. Hurd of the street railway, has in mind

and the cars of the company will be equipped with them as soon as he can find one that can be operated over the uneven streets of this city. A first-class fender for what is known as a one end equipment and can be transferred from one end of the car to the other when the end of the line is reached, costs about \$40, per car. When the saving of a life is taken into consideration the cost of equipping a car with a fender is a very small thing.

TRAINS OPERATED WITHOUT ORDERS

Curious New System Introduced on
the Burlington Railroad Seems
to Work Satisfactorily.

It is not generally known that all trains on the double tracks of the Burlington road are operated without orders. The system was introduced by W. C. Brown, who has just resigned the general management of the road to become vice president of the Lake Shore.

Operating hundreds of trains day and night over every division without a scrap of an order may appear at first thought a dangerous proceeding, but the officers of the company say that the system is simple and no accident has as yet occurred as a result.

"While it is not generally known that trains on the double tracks of our road are operated without orders it is a fact," said an officer of the Burlington. "When a moment's study is given the question the conclusion will be that it is proper and that all double track lines with block signals ought to do likewise. There is absolutely no danger, and I am of the opinion that the absence of orders from train dispatchers conduces to safety. Engineers and trainmen become accustomed to relying on their time cards and the block signals instead of orders from dispatchers."

"With two tracks and block signals orders only tend to confuse and in my opinion retard rather than assist in a successful operation of trains. The non-order system has been given a thorough trial and there is no room to doubt its entire success. I believe that before long not a double track system in the country will use train orders. On a recent occasion a special train was run over our road and one of the superintendents attempted to send out orders about it. It was found that the train was running itself so we let the orders were countermanded and the flyer allowed to proceed according to time cards and block signals."

Officers of the Burlington say they expect to see Vice President Brown of the Lake Shore apply his non-order system to that road which is double-tracked and blocked the entire length."

PANIC ON STRANDED SHIP

Lusitania with 500 Passengers
Aboard Goes Aground.

TWENTY REPORTED DROWNED

Crew Compelled to Battle with Panic-Stricken Passengers to Save Women and Children—Unable to Verify Reported Loss of Life.

St. Johns, N. F., June 27.—The Orient Steam Navigation Co.'s steamer Lusitania, Capt. McNay, from Liverpool, June 18, for Montreal, having 500 passengers on board, was wrecked last night off Cape Ballard.

The Lusitania was bound round Cape Race for Montreal, with a large cargo and a ship load of passengers. She mistook her course in a dense fog and went ashore near Renewes, two miles north of Cape Race, before day-break. The ship ran over a reef and hangs against a cliff.

The passengers, who are mostly emigrants, were panic-stricken. They stampeded and fought for the boats, but were overcome by the officers and crew, who secured control after great trouble and a prolonged struggle with the rougher element among the passengers, who used knives.

The women and children were first landed, and the men followed. The crew stood by the ship. A heavy sea was running, but at last advice the Lusitania was holding her own. It was thought likely, however, that she would prove a total wreck.

The disaster occurred miles from the nearest telegraph station, and the details obtainable at this time are meager. Several steamers are fitting out here to go to the scene of the wreck. It is expected that the large cargo of the Lusitania will be salvaged.

As this dispatch is being sent a report has reached here that a boatload of people from the Lusitania was rescued and that twenty persons were drowned. The correspondent of the Associated Press is unable to verify the report at present.

The Lusitania is 2,518 tons net, 3,912 tons gross, and has engines of 700 horse-power. It was built at Birkenhead in 1871. Its length is 379 feet. In the afternoon the steamer had listed over on the starboard side and was full of water. The last message to the agents of the Lusitania here says the vessel is hard and firm aground on the reef and a hopeless wreck. The engine-room is full of holes and flooded and the forehold is also flooded. A strong northeast breeze is rising and tumbling up a heavy sea, which will soon dismantle the ship.

Chaffee Now Military Head.

Washington, June 27.—The formal order assigning General Chaffee to the command of the troops in the Philippines and making him Military Governor has been published by the War Department. It reads: "By direction of the President Major General Adna R. Chaffee, U. S. A., is assigned to the command of the division of the Philippines, to take effect July 4, 1901, relieving Major General Arthur MacArthur, U. S. A. Major General Chaffee, in addition to his duties as division commander, will exercise the authority of Military Governor of the Philippine Islands. On completion of the transfer of the command General MacArthur will proceed to San Francisco, Cal."

A severe sprain will usually disable the injured person for three or four weeks. Many cases have occurred however, in which a cure has been effected in less than one week by applying Chamberlain's Pain Balm. For Sale by People's Drug Co., and King's Pharmacy.

Miss Fifield Is Found.

Janesville, Wis., June 27.—Alderman Frank E. Fifield has received the following telegram: "Buffalo, June 26.—I am safe and well. Will be home at once. Helen." Miss Fifield disappeared from home a week ago today, and this is the first that has been heard from her direct.

Harold Pitt Is Acquitted.

Manila, June 27.—Harold M. Pitt, manager of Evans & Co., government contractors, who has been on trial on charges of improperly purchasing government stores, was acquitted to-day. Four other purchasers of commissary stores were found guilty and fined \$1,000 each.

Murder at Poplar Bluffs, Mo.

Poplar Bluffs, Mo., June 27.—Steve Clark killed Alice Stiles, using a knife and hatchet and cutting her to pieces. Clark afterward attempted to commit suicide by stabbing himself, but did not inflict a fatal wound. He is under arrest. No cause for the crime is known.

YOU C/N CURE IT.

A New Cure For Catarrh in Tablet Form.

The old time treatment for catarrh was in the form of douches or sprays; later on internal remedies were given with greater success, but being in liquid or powdered form were inconvenient and were open to the same objection to all liquid remedies, that is, that they lose whatever medicinal power they may have had on exposure to the air.

The tablet is the ideal form in which to administer medication, but until recently no successful catarrh tablet had ever been attempted.

At this writing, however, a most excellent and palatable remedy for catarrh has been placed before the public and sold by druggists, called Stuart's Catarrh Tablets, composed of the most recent discoveries in medicine for the cure of catarrh, and results from their use have been highly gratifying.

Stuart's Catarrh Tablets contain principally highly concentrated antiseptics, which kill the catarrh germs in the blood, and mucous membranes, and in this respect are strictly scientific and modern, as it has been known for some years past by the ablest physicians that the most successful catarrh treatment was by inhaling or spraying antiseptics.

The use of inhalers, douches, and sprays however, is a nuisance and inconvenience, and moreover can in no wise compare with the same remedies given in tablet form, either in efficacy or convenience.

A clerk in a prominent insurance office in Pittsburgh relates his experience with Stuart's Catarrh Tablets in a few words but to the point. He says: "Catarrh has been almost constantly with me for eight years; in this climate it seems impossible to get rid of it. I awoke every morning stopped up and for the first half hour it was cough, gag, expectorate and sneeze before I could square myself for my day's work; no appetite, and a foul breath which annoyed me exceedingly."

"I used Stuart's Catarrh Tablets for two months and found them not only pleasant to take but they did the business and I can sincerely recommend them to all catarrh sufferers."

Druggists sell Stuart's Catarrh Tablets at 50 cents for full sized package. They can be carried in the vest pocket and used at any time and as often as necessary. Guaranteed free from cocaine, mercury or any mineral poison; absolutely safe.

Digests what you Eat

Dyspepsia Cure

Many digestive compounds and tablets are recommended to cure dyspepsia by digesting food with the pepsin they contain. Most of these possess merit, but they all fail in many cases, because pepsin digests only albuminous foods, such as eggs and meat. But we must eat more than eggs and meat; and some of the worst cases of dyspepsia are caused by indigestion of fats and starches and other foods which pepsin cannot digest.

There is one preparation that contains all the digestants. It is KODOL DYSPEPSIA CURE, which digests what you eat, and has been used with remarkable success,—not a single failure to cure being reported from the many thousands who have used it.

J. E. Peabody, Pittsfield, N. Y., says: "The first dose of Kodol Dyspepsia Cure relieved my son of stomach and heart trouble, and four bottles of it cured him. I heartily recommend it."

It can't help but do you good

Prepared by E. C. DeWitt & Co., Chicago. The \$1. bottle contains 2 1/2 times the 50c. size.

When you suffer from biliousness or constipation, use the famous little liver pills known as DeWitt's Little EARLY RISERS. They never gripe, M'CUE & BUSS.

BORT, BAILEY & CO.

CLOSING OUT SALE OF CARPETS, CURTAINS, RUGS, ETC.

The plain facts of this sale are, that we must either close out our stock before July 10th or move it. We don't want to move it, so we purpose to sell it. On July 10th the roof will be torn off from our present carpet room preparatory to putting on a second story, and all our goods in our carpet room will have to be moved out to other quarters or sold out to the trade. We prefer the latter alternative and therefore will make throughout the entire carpet room the most sweeping reductions. The following prices will hold until July 10th:

Carpets.

50 rolls best extra super two-ply Ingrains, including Lowell's, Hartford, Park Mills, and Lincestershire, at 47½c yd

We run a first-class repair shop, best of work guaranteed.

Obey The Law

And Paint
That
Gasoline
Can.

Every can used for holding gasoline should be painted red and the word GASOLINE painted thereon. The Wisconsin laws so state. Obey the law and you be safe from a fine when the inspector comes around. Bring in your can and we will paint and stencil it at small cost.

KENT @ CRANE,
13 S. River Street.

MAY GET PRETORIA POST.

Grant Gillespie of Missouri Mentioned as New Consul-General.

New York, June 27.—A dispatch to the Tribune from Washington says: It is probable that the consul generalship at Pretoria, which has been vacant since the return to this country of Adelbert S. Hay, who was killed at New Haven on Sunday morning, will soon be filled by the appointment of Grant Gillespie of Missouri. The Missouri republican leaders have endorsed Gillespie for the post and the state department is only waiting his acceptance before announcing his selection.

Mr. Gillespie was in Washington a few days ago and the place was offered to him. He hesitates to accept, because the experience of Mr. Hay showed that the salary of the post, \$2,000, is not enough to support the incumbent. He has been assured that congress will increase the pay and it is thought that on this assurance he will accept it and

qualify at an early date, so as to hurry to the Transvaal capital and look after the long needed interests there.

Many Exposed to Smallpox.

Bedford, Ind., June 27.—A well developed case of smallpox was discovered on a passenger train on the Baltimore and Ohio Southwestern road that reached this city today. A young man named Box got on the train four miles from town, to come here to see a doctor. Dr. Hunter, secretary of the board of health, pronounced his disease smallpox. Great excitement prevailed. Over twenty-five passengers from Mitchell coming here to attend court were exposed.

Paul Kruger at Rotterdam.

Rotterdam, June 27.—Mr. Kruger, president of the late South African republic, was welcomed at the railroad station on his arrival here by the burgomaster, deputations from numerous societies, and many ladies.
